LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Reporting Entity

The Legal Profession Admission Board (the Board) is constituted under Part 7.1 of the Legal Profession Act 2004. Its role involves the examination of Students-at-Law, the approval of properly qualified persons for Admission as Lawyers and the approval of properly qualified persons for Appointment as Public Notaries.

The Board is a not-for-profit entity (as profit is not its principal objective) and it has no cash generating units.

(b) Basis of Preparation

The Board's financial statements are a general purpose financial statements which have been prepared in accordance with applicable Australian Accounting Standards, the requirements of the *Public Finance and Audit Act and Regulation*, and the Treasurer's Directions.

Property, plant and equipment and TCorp Hour Glass Facilities are measured at fair value.

Judgements, key assumptions and estimations that management has made, are disclosed in the relevant notes to the financial statements.

All amounts are rounded to the nearest dollar and are expressed in Australian currency.

(c) Statement of Compliance

The financial statements and notes comply with Australian Accounting Standards, which include Australian Accounting Interpretations.

(d) Other Financial Assets

Other financial assets are measured at fair value and TCorp Hour-Glass Facilities are designated through profit and loss.

(e) Property, Plant & Equipment

(i) Acquisition of Assets

The cost method of accounting is used for the initial recording of all acquisitions of assets controlled by the Board. Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire the asset at the time of its acquisition or construction or, where applicable, the amount attributed to the asset when initially recognised in accordance with the requirements of other Australian Accounting Standards.

Assets acquired at no cost, or for nominal consideration, are initially recognized at their fair value at the date of acquisition.

Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction.

LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont.

Where payment for an asset is deferred beyond normal credit terms, its cost is the cash price equivalent, i.e. deferred payment amount is effectively discounted at an asset-specific rate.

(ii) Capitalisation Threshold

Property, plant and equipment and intangible assets costing \$3,000 and above individually (or forming part of an network costing more than \$3,000) are capitalised.

(iii) Revaluation of Property, Plant and Equipment

Physical non-current assets are valued in accordance with the "Valuation of Physical Non-Current Assets at Fair Value" Policy and Guidelines Paper (TPP 07-1). This policy adopts fair value in accordance with AASB 116 *Property, Plant and Equipment*.

Property, plant and equipment are measured on an existing use basis, where there are no feasible alternative uses in the existing natural, legal, financial and socio-political environment. However, in the limited circumstances where there are feasible alternative uses, assets are valued at their highest and best use.

Fair value of property, plant and equipment is determined based on the best available market evidence, including current market selling prices for the same or similar assets. Where there is no available market evidence, the asset's fair value is measured at its market buying price, the best indicator of which is depreciated replacement cost.

The Board revalues each class of property, plant and equipment at least every five years or with sufficient regularity to ensure that the carrying amount of each asset in the class does not differ materially from its fair value at reporting date. The last revaluation was completed on 30 June 2011 and was based on an independent assessment. A desk top review was undertaken as at 31 March 2012 by Land and Property Information, the same valuers as at 30 June 2011, which indicated no change to the property revaluation currently reflected in the books.

When revaluing non-current assets by reference to current prices for assets newer than those being revalued (adjusted to reflect the present condition of the assets), the gross amount and the related accumulated depreciation are separately restated.

For other assets, any balance of accumulated depreciation at the revaluation date in respect of those assets are credited to the asset accounts to which they relate. The net asset accounts are then increased or decreased by the revaluation increments or decrements.

Revaluation increments are credited directly to the asset revaluation reserve, except that, to the extent that an increment reverses a revaluation decrement in respect of that class of asset previously recognised as an expense in the Net Result, the increment is recognised immediately as revenue in the Net Result.

Revaluation decrements are recognised immediately as expenses in the surplus/deficit, except that, to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of assets, they are debited directly to the asset revaluation reserve.

As a not-for-profit entity, revaluation increments and decrements are offset against one another within a class of non-current assets, but not otherwise.

LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont.

Where an asset that has previously been revalued is disposed of, any balance remaining in the asset revaluation reserve in respect of that asset is transferred to accumulated funds.

(iv) *Impairment of Property, Plant and Equipment*

As a not-for-profit entity with no cash generating units, the Board is effectively exempted from AASB 136 *Impairment of Assets* and impairment testing. This is because AASB 136 "Impairment of assets" modifies the recoverable amount test to the higher of fair value less costs to sell and depreciated replacement cost. This means that, for an asset already measured at fair value, impairment can only arise if selling costs are material. Selling costs are regarded as immaterial.

(f) *Depreciation/Amortisation of Property, Plant and Equipment & Intangible Assets*

Depreciation is provided for on a straight-line basis for all depreciable assets so as to write off the depreciable amount of each asset as it is consumed over its useful life to the Board.

All material separately identifiable components of assets are depreciated over their shorter useful lives. Land is not a depreciable asset.

The depreciation/amortization rates used for each class of assets are as follows:

Building	2.5%
Computer Equipment	25%
Office Equipment	20%
Furniture & Fittings	10%
Intangible Assets - Software	25%
Intangible Assets - Software - Major Projects	10%

(g) *Maintenance*

Day-to-day servicing costs or maintenance are charged as expenses as incurred, except where they relate to the replacement of a component of an asset, in which case the costs are capitalised and depreciated.

(h) *Intangible Assets*

The Board recognises intangible assets only if it is probable that future economic benefits will flow to the Board and the cost of the asset can be measured reliably. Intangible assets are measured initially at cost. Where an asset is acquired at no or nominal cost, the cost is its fair value as at the date of acquisition.

All research costs are expensed. Development costs are only capitalised when certain criteria are met.

The useful lives of intangible assets are assessed to be finite.

Intangible assets are subsequently measured at fair value only if there is an active market. As there is no active market for the Board's intangible assets, the assets are carried at cost less any accumulated amortisation.

The Board's intangible assets are amortised using the straight-line method over a period from four to ten years.

LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont.

In general, intangible assets are tested for impairment where an indicator of impairment exists. If the recoverable amount is less than its carrying amount the carrying amount is reduced to recoverable amount and the reduction is recognised as an impairment loss.

(i) Payables

These amounts represent liabilities for goods and services provided to the Board and other amounts, including interest. Payables are recognised initially at fair value, usually based on the transaction cost or face value. Subsequent measurement is at amortised cost using the effective interest method. Short term payables with no stated interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

(j) Accounting for the Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where:

- * The amount of GST incurred by the agency as a purchaser that is not recoverable from the Australian Taxation Office is recognised as part of the cost of acquisition of an asset or part of an item of expenses; and
- * Receivables and payables are stated with the amount of GST included.

Cash flows are recognised on a gross basis in the Statement of cash flows. However, the GST components of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office are classified as operating cash flows.

(k) Personnel Services

The Department of Attorney General and Justice (DAGJ) provides employees to the Board to enable it to carry out its functions. The expense and liabilities due to DAGJ are classified as "Personnel Services" in the Statement of Comprehensive Income and the Statement of Financial Position respectively, and are calculated by DAGJ using the following recognition and measurement criteria:

- (i) Salaries and wages (including non-monetary benefits), annual leave and paid sick leave that fall due wholly within 12 months of the reporting date – recognised as short-term employee benefits and measured at undiscounted amounts based on the amounts expected to be paid when the liabilities are settled.
- (ii) Long-term annual leave that is not expected to be taken within twelve months – the nominal method has been used as this is not materially different from the present value method as required by AASB 119 *Employee Benefits*.
- (iii) Unused non-vesting sick leave – not recognised, as it is not considered probable that sick leave taken in the future will be greater than the benefits accrued in the future.
- (iv) On-costs, such as payroll tax, workers' compensation insurance premiums and fringe benefits tax, which are consequential to employment – recognized as liabilities and expenses where the employee benefits to which they relate have been recognised.

LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont.

- (v) Long Service Leave Liability comprises the Legal Admission Profession Board's liability to the Department of Attorney General and Justice for costs arising from personnel services rendered by the Department of Attorney General and Justice to balance date. This also includes superannuation for personnel services provided by the Department of Attorney General and Justice. Costs payable within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs.
- (vi) Superannuation – The expense for certain superannuation schemes (Basic Benefit and First State Super) is calculated as a percentage of the employees' salary. For other superannuation schemes (State Superannuation Scheme and State Authorities Superannuation Scheme), the expense is calculated as a multiple of the employees' superannuation contributions. Defined benefit superannuation obligations are as determined by Pillar Administration.

(l) Other Provisions

Other Provisions exist when: the Board has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of resources will be required to settle an obligation; and a reliable estimate can be made of the amount of the obligation.

(m) Borrowings

Loans are not held for trading or designated at fair value through profit of loss and are recognised at amortised cost using the effective interest rate method. Gains or losses are recognised in the net result for the year on derecognition.

The Board has borrowed funds from NSW Treasury Corporation for the purchase of the premises at Level 4, 37 Bligh Street, Sydney (Refer to Note 9 (b))

(n) Income Recognition

Sales Revenue

Sales Revenue comprises revenue earned from the provision of services to clients and other entities. Sales revenue to clients is generally recognised upon receipt of applications for admission as a lawyer, registration of students at law and other services. The University of Sydney sets a Tuition Fee for its tuition-related services. For reasons of economy and convenience, the Board collects the Tuition Fees (on behalf of University of Sydney) as well as the Examination Fees (this part is LPAB's revenue). The Board remits the whole of the Tuition Fees to the University of Sydney at least twice a year. Therefore, the tuition fees LPAB collected will not be treated as its revenue, it will be held in LPAB's Sundry Creditors account until the time of remitting to University of Sydney.

Rental Revenue

Rental revenue is recognised in accordance with AASB 117 Leases on a straight-line basis over the lease term.

Investment Revenue

Interest income is recognised using the effective interest method as set out in AASB 139 *Financial Instruments: Recognition and Measurement*.

Other Revenue

Other revenue comprises income received from non-core activities and is recognised when the fee in respect of these activities is receivable.

LEGAL PROFESSION ADMISSION BOARD
Notes to and forming part of the financial statements
For the Year ended 30 June 2012

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont.

(o) Impairment of Financial Assets

All financial assets are subject to an annual review for impairment. An allowance for impairment is established when there is objective evidence that the entity will not be able to collect all amounts due.

Any reversals of impairment losses are reversed through the Net Result for the year, where there is objective evidence. Reversal of impairment losses of financial assets carried at amortised cost cannot result in a carrying amount that exceeds what the carrying amount would have been had there not been an impairment loss.

(p) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These financial assets are recognised initially at fair value, usually based on the transaction cost or face value. Short-term receivables with no stated interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

(q) New Australian Accounting Standards issued but not effective

At the reporting date, a number of Accounting Standards adopted by the AASB has been issued but are not yet adopted as per NSW Treasury Circular TC 12/04.

AASB 9 and AASB 2010-7 regarding financial instruments.
AASB 13 and AASB 2011-8 regarding fair value measurement
AASB 119, AASB 2011-10 and AASB 2011-11 regarding employee benefits

Other recently issued or amended standards are not expected to have a material impact on the entity. The Board expects the adoption of these standards in future periods to not materially impact the financial statements.

Revaluation of Property

Each class of physical non-current assets is revalued at least every 5 years. The property was revalued as at 30 June 2011 for the Board by Mr Paul Goldsmith, Registered Valuer, Australian Property Institute, who is the Valuation Manager, Government Clients, Land & Property Information.

Buildings and improvements are non specialised asset, for which current market buying price can be observed. We have valued the property having regard to the direct comparison method of valuation and the capitalisation of rental income approach having reference to current market transactions of comparable properties in the surrounding locality.

A desk-top revaluation of the property was undertaken by the same property valuers as at 31 March 2012 in respect of the 30 June 2012 position. The desk-top revaluation indicated that the current carrying amount of assets materially approximated their fair value. As a result, there was no revaluation adjustment recognised during the year.

Borrowings are from NSW Treasury Corporation for the purchase of the premises at Level 4, 37 Bligh Street Sydney. The original loan of \$1.5 million was made on 10 December 2004. Rollover loans mature on 30 June of each year. The Board approves payment amounts before that date based upon the Board's financial position and recommendation of the Executive Officer. TCorp advises new interest rates and the outstanding amount is rolled over to a new 12 month loan.

Maturing loans may be re-financed if the borrowing limit is not exceeded, at the discretion of LPAB. As such, borrowings that are expected to mature within the next 12 months that management expect to rollover for at least another 12 months from reporting date, have been classified as non-current.

14 FINANCIAL INSTRUMENTS

The Board's principal financial instruments are outlined below. These financial instruments arise directly from the Board's operations or are required to finance the Board's operations. The Board does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Board's main risks arising from financial instruments are outlined below, together with the Board's objectives, policies and processes for measuring and managing risk. Further quantitative and qualitative disclosures are included throughout this financial statements.

The Board has overall responsibility for the establishment and oversight of risk management and reviews and agrees policies for managing each of these risks. Risk management policies are established to identify and analyse the risks faced by the Board, to set risk limits and controls and to monitor risks. Compliance with policies is reviewed by the Board on a continuous basis.

Borrowings	9b	Financial liabilities measured at amortised cost	600,000	800,000

(1) Excludes statutory receivables and prepayments (i.e. not within the scope of AASB 7).

(2) Excludes statutory payable and unearned revenue (i.e. not within the scope of AASB 7).

(b) Credit Risk

Credit risk arises when there is the possibility of the Board's debtors defaulting on their contractual obligations, resulting in a financial loss to the Board. The maximum exposure to credit risk is generally represented by the carrying amount of the financial assets (net of any allowance for impairment).

Credit risk arises from the financial assets of the Board, including cash and receivables. No collateral is held by the Board. The Board has not granted any financial guarantees.

Cash

Cash comprises cash on hand and bank balances. Interest is earned on daily bank balances.

Receivables - trade debtors

All trade debtors are recognised as amounts receivable at balance date. Collectibility of trade debtors is reviewed on an ongoing basis. Procedures as established in the Treasurer's Directions are followed to recover outstanding amounts, including letter of demand. Debts which are known to be uncollectible are written off. An allowance for impairment is raised when there is objective evidence that the entity will not be able to collect all amounts due. This evidence includes past experience, and current and expected changes in economic conditions and debtor credit ratings. No interest is earned on trade debtors. Sales are made on 30 day terms.

The Board is not materially exposed to concentrations of credit risk to a single trade debtor or group of debtors. There are no debtors which are currently not past due or impaired whose terms have been renegotiated.

(c) **Liquidity Risk**

Liquidity risk is the risk that the Board will be unable to meet its payment obligations when they fall due. The Board continuously manages risk through monitoring future cash flows and maturities planning to ensure adequate holding of high quality liquid assets.

During the current year and prior years, there were no defaults or breaches on any loans payable. No assets have been pledged as collateral. The Board's exposure to liquidity risk is deemed insignificant based on prior periods' data and current assessment of risk.

The liabilities are recognised for amounts due to be paid in the future for goods or services received, whether or not invoiced. Amounts owing to suppliers (which are unsecured) are settled in accordance with the policy set out in Treasurer's Direction 219.01. If trade terms are not specified, payment is made no later than the end of the month following the month in which an invoice or a statement is received.

The table below summarises the maturity profile of the Board's financial liabilities, together with the interest rate exposure.

		<u>858,212</u>		<u>58,212</u>	<u>0</u>	<u>800,000</u>	<u>0</u>

(d) **Market Risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Board's exposures to market risk are primarily through interest rate risk on the Board's borrowings and other price risks associated with the movement in the unit price of the Hour Glass Investment facilities. The Board has no exposure to foreign currency risk and does not enter into commodity contracts.

The effect on operating performance and equity due to a reasonably possible change in risk variable is outlined in the information below, for interest rate risk and other price risk. A reasonably possible change in risk variable has been determined after taking into account the economic environment in which the Board operates and the time frame for the assessment (i.e. until the end of the next annual reporting period). The sensitivity analysis is based on risk exposures in existence at the statement of financial position date. The analysis is performed on the same basis for 2011. The analysis assumes that all other variables remain constant.

Interest rate risk

Exposure to interest rate risk arises primarily through the Board's interest bearing liabilities. This risk is minimised by undertaking mainly fixed rate borrowings, primarily with NSW TCorp. The Board does not account for any fixed rate financial instruments at fair value through profit or loss or as available for sale. Therefore for these financial instruments a change in interest rates would not affect profit or loss or equity. A reasonably possible change of +/- 1% is used, consistent with current trends in interest rates. The basis will be reviewed annually and amended where there is a structural change in the level of interest rate volatility. The Board's exposure to interest rate risk is set out below.

(e) Fair Value

Financial instruments are generally recognised at cost.

The amortised cost of financial instruments recognised in the balance sheet approximates the fair value, because of the short term nature of many of the financial instruments.

The Board uses the following hierarchy for disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Derived from quoted prices in active markets for identical assets/liabilities
- Level 2 - Derived from inputs other than quoted prices that are observable directly or indirectly.
- Level 3 - Derived from valuation techniques that include inputs for the asset/liability not based on observable market data (unobservable inputs)

	Level 1	Level 2	Level 3	Total
Financial Assets at fair value				
TCorp Hour Glass - Cash Facility Investment		547,117		547,117

There were no transfers between level 1 and 2 during the year ended 30 June 2012.

Prices for the TCorp Hour Glass Investment Facility are observable ; however no active market exists for these facilities as they are only accessible to government agencies.
